

BA124

The Blacklion BA124 is a premium all-position rib engineered with an advanced rubber compound to deliver exceptional tread life. The BA124 features wide circumferential grooves which provide superior water evacuation. Its wide footprint allows for improved load distribution resulting in superior stability at all wheel positions while minimizing irregular wear.

APPLICATIONS

- Line Haul Trucks
- Regional Trucks
- Transit Buses
- Auto Carriers

TIRE FEATURES

- Enhanced rubber compound to increase durability.
- Multiple rib design delivers exceptional stability.
- Solid shoulder design.
